Subject: Decorative/Construction Stone Quarry Operation (Disturbance 5 Acres or Less)

Date: 11, July, 2000

Dear Larry:

Color Country Rock LLC. Intends to begin quarry operations within the next couple of weeks on un-patented lode mining claims in Washington Co., Utah.

Owners/Operators:

Gordon B. Holt
LeGrande Fawcett
Jeff Fawcett
Max Kevin Schmidt
Jack A. Chambers
Preston L. Hafen

Address:

Color Country Rock LLC
291 East 1400 South, Suite #1
St. George, Utah 84790

Unpatented Lode Mining Claims:

Snow White #1 00684988 and Snow White #2 00684989 located in SE/4 Section 9, Township 39 South, Range 19 West situated in Washington County, Utah approximately one mile north of Potters Peak.

Description of Activities:

Existing roads situated on the claims will be utilized for initial access to two locations where small scale quarrying operations will be initiated. Old roads will be closed to upgrade them for safe access. Some additional roads may be constructed to provide safe work space for equipment, including a dozer (D-8 or smaller) an air track drilling rig and associated support equipment. Also a track hoe for moving broken rock, diesel truck for hauling rock and one or more pick-up trucks for personnel. Operations will include road work, drilling and blasting, sorting/sizing and loading of broken rock. Initial work will include obtaining samples of various rock types/colors/sizes to establish market conditions. Follow-on work will include quarrying and marketing of specific rock products.

Page Two

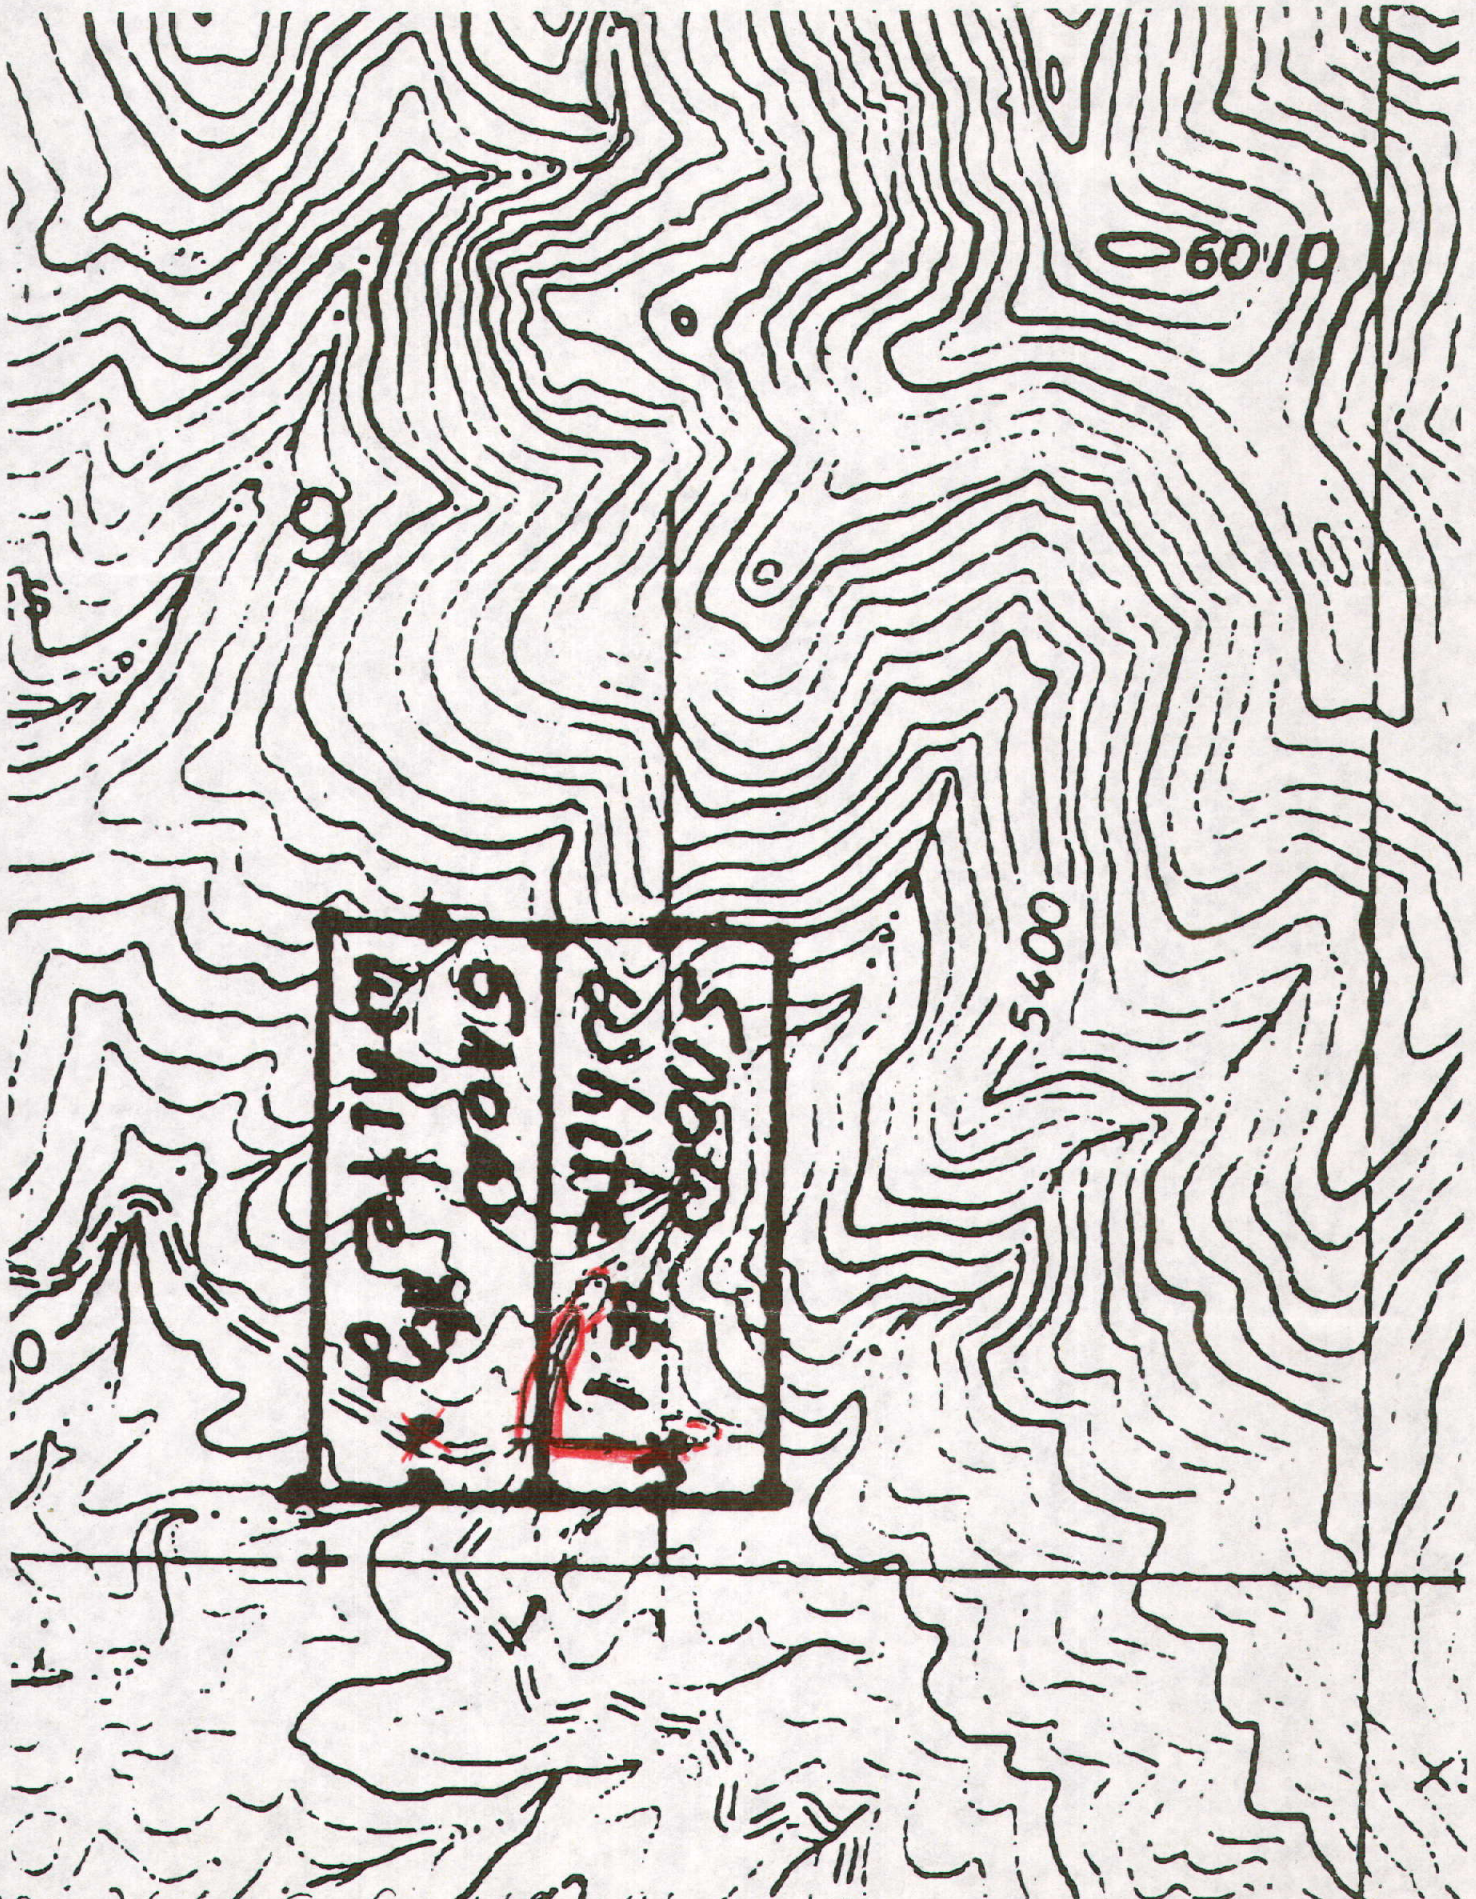

All quarrying operations will occur within the boundaries of the mining claims.

Reclamation:

Reclamation will be conducted on an ongoing basis to minimize any potential adverse impact on the environment. Total disturbed area will be maintained at less than 5 acres throughout the operation.

At the conclusion of quarrying operations the area of disturbance will be cleaned up, all equipment will be removed and where appropriate the disturbed area will be seeded with approved vegetation.

If you have any questions please contact one of the owners/operators listed above.
